

Pablo Díaz-Jorge García

Frontend Engineer | Frontend Architecture · AI Engineering

Vilamarxant, Valencia, Spain · pablodiazjorge.com · github.com/pablodiazjorge · linkedin.com/in/pablodiazjorge

Software engineer specialized in the intersection of **frontend systems architecture** and **AI engineering**. I design and build scalable interfaces with Angular, TypeScript, Signals, and RxJS, integrating AI coding assistants (Claude Code, GitHub Copilot, OpenCode, MCP, agentic infrastructure) to accelerate development, refactoring, and code review workflows. Author of 9 open-source projects spanning WebAssembly, SSE, PostgreSQL + pgvector, and AES-256 encryption, with public deployment and automated testing.

TECHNICAL SKILLS

Frontend Architecture: Angular 16–22, TypeScript, Signals, RxJS, Web Components, SSR, Tailwind CSS, SCSS

AI Engineering: AI-Assisted Development, Agentic Infrastructure, MCP, Web Workers, WebAssembly, SSE, D3.js, Ollama

Backend & Tooling: Node.js, Express, Java, Spring Boot, PostgreSQL, pgvector, Docker, Vitest, Git, Scrum

PROFESSIONAL EXPERIENCE

Frontend Engineer

Infoport · Sept 2025 – Present

- Design and development of accessible, scalable interfaces for the port logistics sector using Angular, TypeScript, Signals, and RxJS.
- Integration of AI coding assistants and MCP into the team workflow to accelerate refactoring, code review, and testing.
- Implementation of reusable components with SCSS and custom libraries in an agile Scrum environment alongside analysts and backend developers.

Independent Software Engineer — AI & Frontend R&D

Jul 2023 – Sept 2025

- Researched and prototyped 6 open-source solutions at the convergence of frontend architecture and AI engineering: **Candle AI** (Bayesian engine + Angular 22, 165 tests), **prompt-forge** (zero-runtime agentic infrastructure), **Token Cost Analyzer** (tiktoken WASM + D3.js + Angular 19), **Cognitive Agent Orchestrator** (ReAct agents + SSE + Ollama/Qwen), **Semantic Search Engine** (PostgreSQL + pgvector + HNSW + Java 21 + Angular 17), and **Attention Matrix Explorer** (D3.js + Web Workers + Angular 16).
- Stack: Angular (16→22), TypeScript, RxJS, Signals, D3.js, Spring Boot, PostgreSQL, pgvector, Node.js, Express, WebAssembly, SSE, Docker, Ollama.

Full Stack Developer (internship)

NTT DATA · Mar 2022 – Jul 2022

- End-to-end development of a corporate personnel management system with Angular and Java (Spring Boot), implementing REST services and an interactive data visualization module.

FEATURED PROJECTS

- Candle AI** — Technical analysis dashboard with Bayesian confluence engine, Angular 22, Pine Script v5, 165 tests.
candle-ai.pablodiazjorge.com
- prompt-forge** — Zero-runtime agentic infrastructure with persistent memory for AI coding agents.
github.com/pablodiazjorge/prompt-forge
- TestMaker** — Secure exam platform with AES-256-CBC, Angular 21, serverless API, PDF export, 18 Vitest tests.
test-maker.pablodiazjorge.com

EDUCATION

Bachelor's Degree in Computer Science

UPV · 2018 – 2023

Higher Technician in Multiplatform App Development

CIPFP Cheste · 2016 – 2018

CERTIFICATIONS & LANGUAGES

- Scrum Master Professional (SMP)** — CertiProf, June 2026
- Claude Code in Action** — Anthropic, January 2026
- Languages:** Spanish and Valencian (native), English (full professional proficiency)
